<b>ABOUT US</b>	<b>17 about us</b>

It is unfortunate that rooftops in Japan have only a "hardware-like" (physical) function.  
 There is usually only one role for the living room and that is to occasionally drink tea.  
 There is often no "Software-like" (non-physical) function.

COLORS has "three softwares" which change function depending on the space you are in.  
 Depending on the phone app, the smartphone may become a phone, a music player or an internet terminal.

Think of a "kitchen & dining" software.  
 Or a software called "home bar".  
 Or a software called "relaxation".

While zoning these three software, the lines and details were beautifully designed to produce two types of / products "COLORS white" and "COLORS black".

Most people who are currently constructing rooftops only think of things that are possible now, but PASIO imagines what can be done for tomorrow and the future.

From the ordinary rooftop to the designed rooftop.  
 Japan will also soon be catching up with the changing times.

soon be in the time of changing.

**We are Rooftop Designers.**

# COLORS white

High quality and sophisticated white

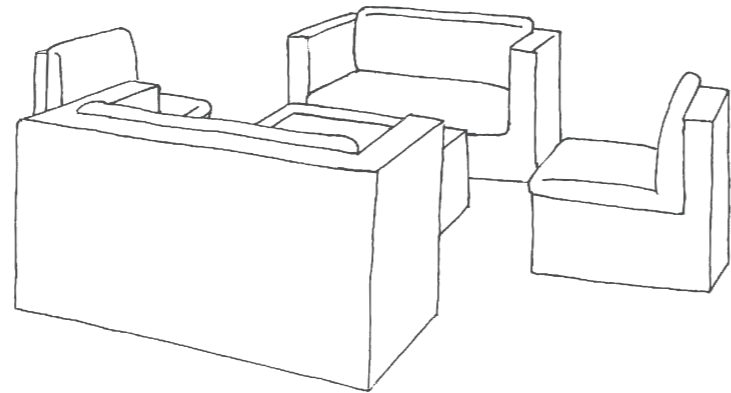

# COLORS black

Intellectual and elegant black

# ROOFTOP ITEMS BY COLORS

## — Kitchen&Dining

### Low dining sofa

color  
beige (COLORS white)  
brown (COLORS black)

material  
polyethylene, aluminum

size  
W1500×D750×H710 (SH300)

The skeleton is made of aluminum material. The sheet adopts a high density polyethylene cord material called artificial rattan. It is strong against rain and ultraviolet rays. It is possible to wash it when it is dirty. The cord is braided tightly and firmly. It's comfortable to sit on and easy to touch. Of course it is a PASIO original design.

### Low dining table

color  
beige (COLORS white)  
brown (COLORS black)

material  
polyethylene, aluminum

size  
W900×D700×H400

When you remove the top board, it becomes a side table where seasonings etc can be placed. Moreover, it is possible to effectively utilize the designed space such as for a burner stove which can be placed in the created space. One would like to have dinner while cooking on the roof on a daily basis. PASIO design is not only about beauty but also sticking to functionality.

### Low dining chair

color  
beige (COLORS white)  
brown (COLORS black)

material  
polyethylene, aluminum

size  
W600×D750×H710 (SH300)

We adopted fine quality and refined beige for the furniture in COLORS white's Kitchen & Dining zone. COLORS black has calmness, and we adopted dark brown which shines elegantly besides it. The form is simple and square. It is PASIO design which you can sit on comfortably.

### Two burner

color  
silver (COLORS white / black)

material  
stainless, aluminum, steel

size  
W540×D325×H115  
(When it is stored)

Although it is cassette cylinder type, it is lightweight (about 3.9 kg) and it has a high output of MAX 3,900 kcal / h. Thermal power adjustment is possible, and you can turn the burner down low. It corresponds also to a large-sized pot such as Dutch oven and authentic cuisine is also possible. Make the rooftop another kitchen. This is also one of PASIO's rooftop ideas. Maintenance is easy as well.

### Sink

color  
beige (COLORS white)  
brown (COLORS black)

material  
polyethylene, aluminum

size  
W700×D500×H810

Wash your hands, use it for cooking, rinse light dishes, give water to plants. It is not necessary to take the trouble to get downstairs when you need water so a sink can be useful if it is on the rooftop. The skeleton is an aluminum material, and it is made of artificial lattice material which is water resistant. This is also an original design of PASIO.

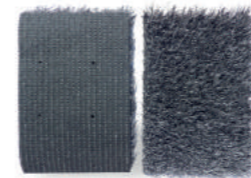

### Lag

color  
brown (COLORS white)  
silver (COLORS black)

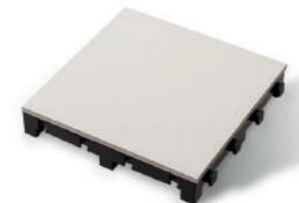

material  
polyethylene, polypropylene

size  
2400×2000

I would like to add another PASIO-like decoration on the rooftop. Moreover, it is set up beautifully so we don't have to worry about the weather all the time. So we adopted a rug made up of artificial grass material. Considering all the colors, putting brown on COLORS white and silver on COLORS black makes us feel so good even on barefoot.

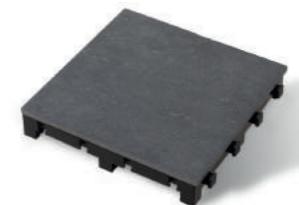

### Tile

color  
modern white (COLORS white)  
modern brown (COLORS black)

material  
porcelain tile

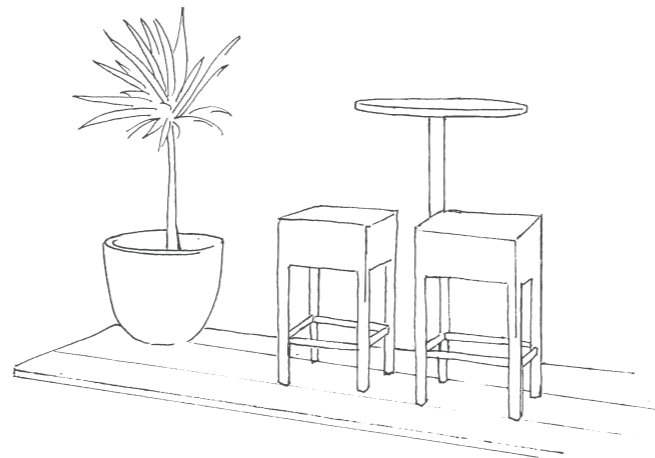

size  
300×300×H50

It is an elegant and sophisticated beautiful white tile which can sure leave you impressed. I want to wear a new Espadoly. I sometimes want to try walking around. Vividly white under the sun, moistly white in the night. COLORS black is a color that I fell in love with at first sight when I inspected a luxury resort hotel abroad. It is a tile I wanted to adopt ever since we decided the product name to be COLORS. Elegant color that makes you want to dress up while staying at home. The color that makes us want to open up the finest wine generously, and act elegant at the rooftop.

# ROOFTOP ITEMS BY COLORS

## — Home Bar

### Bar table

**color**  
gray (COLORS white / black)

**material**  
aluminum casting  
melamine resin

**size**  
W665×D665×H1080 (top plate φ590)

You can each take your favorite drink and enjoy the view from the rooftop. When sitting on a bar chair and facing each other, we also have a bar table of just the right height. At the rooftop party, around this table will be another hangout.

### Bar chair

**color**  
beige (COLORS white)  
brown (COLORS black)

**material**  
polyethylene, aluminum

**size**  
W360×D360×H770

I would like you to use Home & Bar zone every day. Moreover, it should be an extraordinary place where you can forget your busy days at any time. Taking that into account, we prepared two authentic bar chairs. The skeleton is a solid aluminum material. The seat material is an artificial rattan that is comfortable to sit on and excellent in durability.

### Bar deck

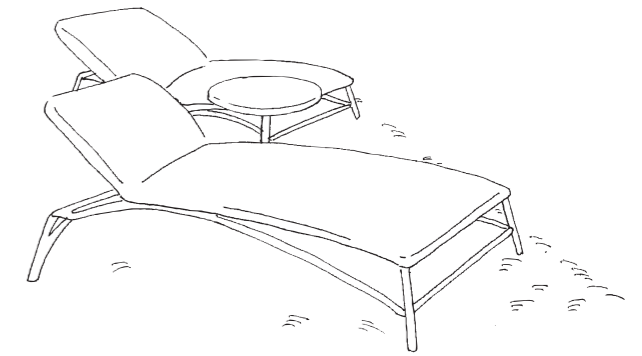

**color**  
warm gray  
(COLORS white / black)

**material**  
recycled plastic composite wood

**size**  
W2400×D1200×H100

Producing the home & bar zoning is this bar deck that is placed on one raised step. The material is artificial timber with texture of natural wood which was born from recycled trees. It never rots and it never splits easily. We gave it a safe finish with barefoot. In addition, since we also managed to reduce the temperature raises on the deck surface, there will be more space that is pleasant to spend time even during the day.

## — Relaxation

### Reclining chair

**color**  
white (COLORS white)  
dark gray (COLORS black)

**material**  
polyester

**size**  
W700×D1720(-2040)×H990(-390)

The reclining chair, which is an indispensable item of luxury villas, is of course standard equipment as well. In addition to being an elegant Italian design, it is lightweight and easy to carry even for women. It is made out of a durable plastic material, too. It is adjustable to a good angle of your choice because it has 4 stages to choose from.

### Side table

**color**  
white (COLORS white)  
dark gray (COLORS black)

**material**  
polypropylene

**size**  
φ600×H400

This side table is a set with the reclining chair in the Relaxation zone. It is a convenient rooftop item where you can put drinks, snacks, smartphones, sunglasses, books for reading and more. This is also lightweight, easy to carry, and is made from durable plastic.

### Grass

**material**  
polyethylene, polypropylene

You must be surprised when you see it at first. In addition to making it with vivid green coloring, the root was scattered with a withering turf and it reproduces the texture of a natural turf in real detail. It has excellent abrasion resistance, weather resistance, water resistance and also there is no need to take care of it much. Please spend some blissful time without shoes occasionally.

# ROOFTOP ITEMS BY COLORS

## — Option

### Parasol

**color**  
beige (COLORS white / black)

**material**  
parasol : polyester, prop : natural wood  
base : steal, cast metal

**size**  
φ2700×H2515 /prop φ38 /base φ530×515

On a sunny day, I'd like you to spend a day on the rooftop of PASIO. For your stay, we prepared a parasol using cloth that shields you from ultraviolet rays by cutting off more than 94% of UV light. Strong construction and elegant design. When you aren't using it, you can easily fold it. It is a good option, though not readily available but please consider it.

### Ball stand light

**color**  
white  
(COLORS white / black)

**material**  
plastic, polyethylene

**size**  
φ250×H240

One of the best parts of the rooftop living is the night. Therefore, PASIO designed the lighting plan precisely so that we can fully enjoy that special time. We adopted a cute ball type stand that is placeable as an object with the LED light on / off switch at the back.

### Round pot

**color**  
white (COLORS white)  
gray (COLORS black)

**material**  
fiber stone

**size**  
φ500×H440

If you boldly plant large plants in large pots, even the rooftop in the city center, can transform into a natural luxury resort terrace. The material is one whose strength was reinforced by kneading the stone into the FRP, it is lightweight and easy to handle, it also has the feel and texture of the stone.

### Spot light

**color**  
black  
(COLORS white / black)

**material**  
aluminum die cast, glass

**size**  
W120×D190×H143

Another lighting plan is the adoption of spotlights. It is good to express your mood in Home & Bar's zoning through creating shadows by lighting of plants. You can also produce a three-dimensional sense of space. Depending on the guests and your mood, please enjoy it by lighting up the favorite places on your rooftop.

### Long pot

**color**  
white (COLORS white)  
gray (COLORS black)

**material**  
fiber stone

**size**  
W350×D350×H1000

The whole roof top becomes a rich healing space. The material is one whose strength was reinforced by kneading the stone into FRP. It is lightweight and easy to carry. It is an indispensable item on a rooftop which has a sense of stone texture.

# ROOFTOP ITEMS BY COLORS

## Option-SkyBath

### Bathtub

color  
white  
(COLORS white / black)

material  
acrylic

size  
W1795×D1130×H510  
capacity : 385ℓ

### Frame

color  
warm gray  
(COLORS white / black)

material  
recycled plastic composite wood,  
aluminum

size  
W2735×D2090×H615  
pillar : H2515

COLORS NO.1 Recommended option is this sky bus. A square form with a fine touch, and soothing bubbles. And a price that leaves everyone amazed. In the summer it's a cool down pool like a resort villa and, in winter it's an outdoor bath. It is an unusual item that you can use on a daily basis. Enjoy temperatures of 35 to 36 degrees that are neither too hot nor cold.

There is a lying area where you can lie when your body warms up. You can lay your body comfortably by putting a mat. For the shade, the cloth with UV shielding of 90%.

May 2015  
CEO Tom Okazaki

**In the whole of Japan, I think I love rooftops the most.**

**I love the rooftops. I can't stop thinking about them.**

**A few years ago, I started a company specializing in rooftops.**

**We have made thousands of rooftops pursuing luxury rooftop and simplicity.**

**At the same time, I looked around at the rooftops all over the world and learned a lot.**

**Eventually, it felt like I could not stay like I had been before.**

**If it is "civilization" that makes human life convenient, it is also said that "culture" enriches human life.**

**The rooftop is exactly the latter.**

**Japan housing is mostly closed up and having a rooftop opens up the house.**

**we can experience light, wind from all the four seasons therefore just going to the rooftop feels relaxing. And that's where we get the energy for facing tomorrow.**

**I think that the rooftop enriches our health.**

**If we were thinking about rooftops simply as a business, we can not achieve our goal of intergrating it with culture.**

**I think we even need more devotion and love for the rooftops.**

**For this reason, we set up this new PASIO.**

**The goal of PASIO is 'rooftop democratization'.**

**We deliver "above the world standard products at the right price" to "everyone" in the world who is yet to have interest.**

**It is a "Renaissance" to change the way people live with rooftops.**

**I believe that it is also a "human revival".**

**Our aim is to focus on the design rather than engineering and marketing.**

**It does not simply refer to the shape and decoration.**

**Considering the meaning of born out of existence, function, and possibilities, we want to give the rooftops life.**

**Imagine what kind of experience the user will experience.**

**PASIO will spare no passion in our effort to color human life.**

**In the spring, the hills seem to have grown bigger from the view on the rooftop.**

**I've just come back on my lovely rooftop.**

## **We are Rooftop Designers.**
